

Nathalie Lemal (Executive Director)

Having been interested from an early age in the theater, Nathalie Lemal took drama classes in her high school, the Lycée Hélène Boucher. In 1993 her theater company's production of Minyana's « Boomerang » won a competition organised by the Theater of Thionville.

Parallel to her university studies (master's degrees in philosophy and education), she continued with her theatrical activities. Since becoming a public school teacher in 2000 she has always taken care to include the arts in her classroom.

In 2008, wanting to be more directly involved in the theater, she became the executive director and director's assistant of the company Art-Attac, for which she has also adapted certain works (such as « Transit ») for the stage.
